

Gentlemen -

The current Wisconsin "no call list" law has been a strong, enforceable means of protecting my privacy from unsolicited calls, and I do not want to see it weakened or replaced by any other less restrictive law.

I urge you to reject the petition by the Consumer Banking Association to overturn the Wisconsin state "no call" law. The Consumer Banking Association has many other means of advertising its products. I value my privacy. I expect the FCC to protect it to the greatest extent allowable by law.

Please reject this request and allow the current Wisconsin "no call" law to remain in effect.

Thank you.

Priscilla Sculley
